

A BETTER LIFE

In 2009, I learned about a new business opening in Hohenwald that would offer services to seniors on site and at home. Since my husband is disabled and I have had to use the services of home health aids on occasion, I decided to look into this new business. It's called A Better Life.

I attended their open house and got a tour of the facility. I was very impressed with how well it was laid out to suit the way each space would be used. They also had people come to talk about the services they would be providing. The staff was very friendly and knowledgeable. I was impressed enough to tell some friends about them as well.

Earlier this year, I had to undergo a minor out-patient surgical procedure. I was told I'd have to restrict some of my activities for a week or two following the procedure, which meant I'd need help with some of my husband's care. I called A Better Life and arranged for someone to come to our house. Tammy was wonderful. On one occasion, I found it necessary to re-schedule one of the appointments on short notice. She had no problem accommodating the change. It was a big relief to know that such good care was available right here in Hohenwald.

I would strongly recommend A Better Life to anyone looking for assistance, either at home or at their facility downtown. They are a true blessing.
